

Fife Sports and Leisure Trust 2018 Gender Pay Gap Report

Government reports that in the UK today, women earn on average 18% less than men. According to CIPD research, the gender pay gap exists because women tend to work in lower-paid occupations and sectors, and occupy less senior roles. Many women take time out of the labour market and work part-time because of unequal sharing of care responsibilities. Stereotypes and workplace culture are also factors.

The gender pay gap should not be confused with unequal pay. Unequal pay is the unlawful practice of paying men and women differently for performing the same or similar work or work of equal value; whereas the gender pay gap is a measure of the difference between the average hourly earnings of men and women.

Fife Sports and Leisure Trust as an employer required by law to carry out Gender Pay Reporting under the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017.
